Coplon Trial Reveals Embassy Watched

FBI Reports Tell Of Close Check By U.S.

Washington, June 9—(AP)—Evidence of American counter-espionage which may have reached into the Soviet embassy here went into the record of the Judith Coplon espionage trial today.

The evidence was contained in hitherto secret FBI reports placed in the trial record over the strong protests of government prosecutors, who said their release might endanger national security.

The FBI reports were based, in turn, upon reports the G-men received from informants who were identified by codes such as "PT-1" and "T-2" instead of by name.

Not Means Of Proof
Although the FBI men who wrote the reports described the informants as "reliable," there was no other way to gauge the credibility of what they told.

One of the reports to the FBI said that a barber employed at the White Sands, N. Mex., rocket proving ground had been commissioned by communists to get information—including photographs—about guided missiles and dispatch the data to the Russian embassy at Mexico City.

The indication that the FBI is keeping a close tab on what goes on at the Soviet embassy here came with the disclosure that the agency was able to obtain detailed information about an application for employment field at the embassy.

The report, however, did not say specifically that the FBI had managed to plant any agents in that Soviet diplomatic center.

The report did disclose that at least one of the American counter-espies is a member of the Communist party here.

According to one of the FBI's informants, the employment application was filed by a woman, Leonora Saron, who sought and obtained employment last year on the Soviet information bulletin, published here.

Her purported application was presented to Leonid Pavlov, third secretary of the Soviet embassy, then head of the bulletin organization.

It told of her scholastic background at the college of the city of New York, Hunter College and Columbia and Cornell universities, and of service with the Council of Soviet-American Friendship and other organizations.

The report, based on observations relayed by informant "T-1," said Leonora Saron once lived with another woman, Shura Lewis, who was "suspected" of being a communist espionage agent. The report on the Saron woman was so detailed that it told of her arranging at one time to go to Baltimore "to buy some Polish sausage from a Polish butcher."

Mrs. Lewis, married to James Lewis, a student at George Washington University here, described the reference to her as "silly and foolish."

She said she could not express how miserable she was because she had been called a "spy."

"I am not," she told a reporter. Mrs. Lewis, born in Russia, came here about five years ago. She said Miss Saron once lived with her for about three weeks. She said she believed she now is working for a New York newspaper.

Downstate Cities Will Not Get Free Licensing Powers

Springfield, Ill., June 9—(P)—Downstate cities today were removed by the Illinois House from a proposal to grant municipalities virtually unlimited local licensing powers. Only Chicago was left in the bill. The bill was toned down still further, but hostile downstate Republicans tried to kill it outright. They failed.

The House agreed by voice vote to the request of Rep. Sam Shapiro (D-Kankakee) that downstate cities be excluded.

Shapiro contended Chicago is the only place where money problems were so acute as to require power to tax all gainful occupations, instead of only a few as at present.

At the suggestion of the Democratic majority leader, the bill then was changed to restrict revenue collections under its terms to \$8,000,000 a year.

A second change would limit duration of the new taxing powers through 1951.

F-30's REACH GERMANY
Frankfurt, Germany, June 9—(P)—Nine U.S. air force F-80 jet fighter planes landed tonight at Fuerstentfeldbruck, Germany.

They had completed a 3,966-mile flight from Selfridge Field, Mich. Six more planes are expected to reach Fuerstentfeldbruck tomorrow.

Chambers Names Five Who Gave Him Secrets

New York, June 9—(P)—Whittaker Chambers ended seven days as a star witness today by naming five men whom he said gave United States secrets to a prewar Russian spy ring.

"The five sources were Julian Wadleigh, Ward Pigman, Harry Dexter White, Alger Hiss and Vincent Renc," Chambers said slowly in reply to a government question.

A few minutes later, he stepped down from the witness stand at the federal perjury trial of Alger Hiss, former high state department official.

Chambers said yesterday that he had five "sources" before the war who gave him secrets to relay to the spy ring. But he named only Hiss and Wadleigh at the time.

A pudgy former senior editor of Time magazine, Chambers said he was a spy ring courier until he broke with the communist party in 1938.

The government began calling new witnesses to the stand shortly after Chambers was excused. They testified about Hiss' financial affairs and typewritten notes and letters by Mrs. Priscilla Hiss, wife of the defendant.

Hiss has denied he ever gave Chambers secrets or even saw him after Jan. 1, 1937. The New York grand jury, to whom he made these twin denials last December, indicted him on two counts of perjury.

Wadleigh has refused comment on similar statements by Chambers that he fed government documents to the spy ring. He formerly was with the state department.

White, former assistant secretary of the treasury, died last Aug. 17 of a heart attack after denying to the House Un-American Activities committee that he was a member of a communist ring.

Municipal Judge Herbert J. Steffes discharged the juror, Raymond Schmanski, 29, "in the interests of justice and the rights of the defendant." Schmanski was replaced by the alternate juror, Mrs. Cora Holzmann.

The 19-year-old defendant is accused by the state of the gunshot killing of his bride's kid sister, Patricia Birmingham, 16, to prevent her from disclosing that her sister was pregnant. Babich claims the shooting was accidental.

The jury, as altered, consists of 16 married men, one married woman and one unmarried woman. There is no alternate.

The defense began a fight to prevent the admission of an alleged "confession" of Babich. But the prosecution told the court it had sufficient circumstantial evidence aside from the "confession" to convict the youth of first degree (premeditated) murder.

American Personal Incomes Fall For 4th Month In Row

Washington, June 9—(P)—Americans' personal income fell for the fourth straight month in April, dropping \$900,000,000 below the March levels.

The Commerce department reported today that this decline brought the national total—figured on an annual rate basis—down to \$213,700,000,000. But it said this still was \$5,100,000,000, or 2.5 per cent, above the figure for April of last year.

This steady shrinkage in personal income—a major source of the government's tax revenue—was pointed up by the department's report that the April rate was \$7,300,000,000 below the all time high set last December.

Even so, the report showed that for the first four months of 1949 the income rate average was \$216,100,000,000 below the all time high set last December.

Even so, the report showed that for the first four months of 1949 the income rate average was \$216,100,000,000 or four per cent higher than in the corresponding period last year.

SPERRLE ACQUITTED
Munich, Germany, June 9—(P)—Former Field Marshal Hugo Sperrle, 62, who directed the Nazi blitz of London, was acquitted today of being a Nazi.

There were no reports of damage. The quake was felt in Hollister, 65 miles southeast of San Francisco, for four or five seconds but no damage was reported.

Wentz, Millionaire Oil Man, GOP Leader, Dies

Ponca City, Okla., June 9—(P)—as the personal representative of the late John G. McCaskey, wealthy Pittsburgh, Pa., man. McCaskey was investing money in the oil industry of the then unemployed, new state of Oklahoma.

After McCaskey's death a few years later Wentz continued as a "lone wolf" in the oil industry.

Although Wentz was probably the biggest guiding influence of the Republican party in Oklahoma, he never sought public office. He resisted efforts of party members, who wanted him to run for governor in 1934 and U. S. Senator in 1944.

In recent years he had been a major influence in the Republican party. He was an original supporter of Thomas E. Dewey and led the campaign for the New York's presidential nomination in 1944 and 1948.

Only a week ago he conferred with Rep. Hugh Scott (R-Pa.), Republican national chairman, at his Ponca City home about the 1950 congressional campaigns.

Wentz came to Oklahoma in 1911,

Truman Calls Probers 'Headline Hunters'

Washington, June 9—(P)—President Truman today hung the description "headline hunters" on (A) people who start espionage and loyalty investigations and (B) John L. Lewis.

This unusual pairing came up at Mr. Truman's weekly news conference.

A reporter asked the president if he thinks the recent increase in investigations of alleged espionage and disloyalty is motivated by anything more than a natural desire for the country's welfare.

They are motivated, the President replied, by a natural desire for headlines.

A moment later someone asked him about the walkout John L. Lewis has called for his mine workers.

Bevin Hopes West And Russia Reach Unwritten Alliance

Blackpool, Eng., June 9—(P)—Foreign Secretary Ernest Bevin raised a hope today that Russia and the West can reach an unwritten pact to live and let live.

He told the British Labor party's annual rally that Russia is a vexing problem and the veto barrier to a formal peace settlement "seems insurmountable." But he did not lack hope for a working arrangement.

"I have been forced to the conclusion that the only thing we can really do is that, if we can not agree how we shall live, at least we should agree to live together," he said.

Bevin refused to discuss the four-power foreign ministers' conference in Paris dealing with Germany.

He did say, however, that "something may emerge yet" from the Paris sessions and added: "you never know what will happen before we break up."

Bevin flew back to Paris this afternoon.

Yangtze Closed Because Nationals May Be Mining It

Shanghai, June 9—(P)—Belief that Chinese nationalists are mining the Yangtze estuary caused Shanghai to be closed to shipping today.

The closing order was issued by Capt. Fred Sabel of the maritime customs.

No communist officials were available for comment. Sabel said he acted because of this incident early today.

A customs pilot ship was approached by a nationalist gunboat 40 miles down the Yangtze from the Woosung harbor entrance and ordered to "get out of here and put out a signal that there is danger ahead."

There was no explanation, but as the pilot ship proceeded up the river it sighted a nationalist LSM (landing ship, medium) zigzagging across the channel.

No mines were seen being laid, but no other reason for such maneuvering could be ascertained.

House Group Backs Bill To Raise Pay Of School Teachers

Springfield, Ill., June 9—(P)—An Illinois House committee today endorsed a proposal to raise the present \$1,200 a year minimum salary for public school teachers.

The bill, backed by the Illinois Education Association, calls for annual minimums of \$1,600 to \$2,400 depending on the extent of a teacher's professional training.

A teacher with a master's degree would qualify for the \$2,400 a year rate. The proposed minimum salary would become effective July 1, 1950.

Irving Pearson, executive secretary of the IEA, said the higher pay guarantees are needed to overcome the existing teacher shortage and to compete with other states for teaching talent.

STEVENS GIVES BANKS 5-DAY WEEK

Springfield, Ill., June 9—(P)—Governor Stevenson today signed two bills permitting Illinois banks to go on a five day week. The act is effective July 1.

The present law requires banks to remain open except on Sundays and legal holidays.

Legislative sponsors said most banks that decide to operate only five days probably will close Saturday. However, banks can choose any day to close.

FRANCHISE MINISTERS DIES

Paris, June 9—(P)—Louis Jean Malvy, 74, former French interior minister, died today after a heart attack.

Malvy, a leader of the middle-of-the-road radical socialist party, was a defendant in a sensational treason trial in 1918. He was exiled for five years but came back to an important place in French political life.

Russ Agrees To Speed Trade Talks In Berlin

Paris, June 9—(P)—Soviet Foreign Minister Andrei Vishinsky agreed tonight to a speed up of the East-West trade talks in Berlin, under which the experts there will report to the Big Four foreign ministers by Monday.

The western powers told Russia they were tired of jockeying in the foreign ministers' council and wanted to get results or quit.

"If we don't cease this futile discussion," Secretary of State Dean Acheson said, "we will never get anywhere."

Acheson's remark followed a long discussion by Vishinsky on the Berlin currency question.

It was the longest session of the conference, now in its third week, and probably the bitterest. The meeting lasted nearly five hours.

Biting comments of western ministers brought action on the one point from the Russian. Earlier he had refused to accede to Acheson's request that the trade and commerce group meeting in Berlin submit findings by Monday so the ministers could act on them.

Vishinsky declared he was awaiting information from Berlin before

Anti-Poll Tax Bill Gets Sidetracked In House Action

Washington, June 9—(P)—Anti-poll tax legislation—a key part of President Truman's Civil Rights program—got sidetracked in the House today.

By a 4 to 3 vote, with one absentee, a House administration subcommittee decided to defer further consideration of the legislation until the House judiciary committee has "a reasonable opportunity" to act on a compromise plan for a constitutional amendment.

Mr. Truman, however, told his news conference that the amendment proposal was just an effort to prolong the agony.

The delay order is subject to review by the full 21-member administration committee next Wednesday. At that time the group may order hearings resumed, uphold the subcommittee, or may approve an anti-poll tax bill for immediate House action.

Anti-poll tax legislation would outlaw such levies as a prerequisite for voting in federal elections.

The House group's action was the first advance move on Capitol Hill against any part of the President's Civil Rights program, which also includes anti-discrimination and anti-lynch legislation.

Dubuque Deere Co. Workers To Accept Company Contract

Dubuque, Iowa, July 9—(P)—Reversing their previous position, members of the CIO United Auto Workers local at the Dubuque John Deere Tractor plant voted today to accept a new contract offered by the company.

In Waterloo, Iowa, meantime, the CIO-UAW local at the Deere plant there today signed the company's proposed contract and sent it to the UAW regional office in Chicago.

Major change involved in the contract is a five cents an hour pay increase. The rate of per hour pay varies in the numerous job classifications.

Contract negotiations between the company and the union at seven Deere plants in Iowa and Illinois broke off in stalemate several days ago.

The Dubuque local was one of three in Deere plants which previously had voted to reject the company offer. A "work holiday" was held by the Dubuque local today to stage the mass meeting at which members voted to accept the company offer.

UAW members of the Des Moines Deere plant voted today on the new contract. But results were not to be announced until later.

Strikers Cripple Nerve Center Of Russian Railroad

Berlin, June 9—(P)—Western Berlin railroad strikers declared tonight they have crippled a nerve center of the Russian zone railway system by sealing off its headquarters with a picket line.

"They need 60 people in there for the telephone alone," said a striker before the big red brick building. "There are now about six. They can't handle the communications."

The railway headquarters is located 500 yards inside the American sector, but is recognized by all four occupying powers as Russian-controlled property.

No German employees crossed the picket line.

Railway officials who are under Russian direction by a Big Four agreement of 1945, declined comment. It was reported unofficially, however, that they have set up duplicate offices in the Soviet sector.

Strike leaders said many Soviet zone trains normally are cleared through the headquarters. The picket line was their answer after four fast-moving Russian officers drove out strikers who attempted to seize the building last midnight.

CONFIRM POSTMASTER
Washington, June 9—(P)—The Senate today confirmed Samuel E. Caldwell as postmaster at Canton, Ill.

Strauss Says Exports Were Mistake

Washington, June 9—(AP)—Lewis Strauss, member of the atomic energy commission, testified today that atom-bombarded isotopes sent abroad could be used for research on germ warfare, aviation gasoline and rockets.

Strauss said he protested to other members of the five man commission against the shipments, beginning in 1947, but was overruled.

"I have not altered the views these expressed (in 1947), and the intervening events have fortified them," Strauss said.

Calm, Slow-Speaking
Strauss' calm, slow-spoken testimony came as he confronted AEC Chairman David E. Lilienthal in a day marked by bustling exchanges, challenges and rebukes before the Senate-House atomic energy committee.

The joint committee is conducting hearings on a demand by Senator Hickenlooper (R-Iowa) that Lilienthal be fired for "incredible mismanagement" of the atomic program during the past two years. Lilienthal has denied the charges and accused Hickenlooper of fostering a "smear" campaign.

At his White House news conference, President Truman said two weeks of testimony in the atomic investigation haven't changed his opinion a bit—he still thinks the AEC is in good hands under Lilienthal.

In today's major developments: 1. Senator Vandenberg (R-Mich) sharply reprimanded Lilienthal for saying that an "aura of suspicion" had been raised against Norway in connection with Hickenlooper's testimony that isotopes were sent to the Norwegian military establishment.

2. Rep. Henry M. Jackson (D-Wash) denounced the entire investigation as "a carnival of confusion."

3. Lilienthal reiterated his denial that the 1946 atomic energy act was violated in shipping the isotopes to foreign countries.

4. Senator "Snowball" (R-Calif) accused the AEC of "loose control" over its shipments of atomic materials within the United States. He said this is shown by secret papers relating to shipping and receipting of A-bomb ingredients.

Commissioner Strauss testified that he challenged in vain the AEC's decision to clear isotopes for shipment abroad. He said that although the isotopes were ostensibly destined for "humanitarian" purposes, he feared they might be exploited by some foreign country to aid military research.

Strauss was voted down 4 to 1 by other AEC members, including Lilienthal.

Science Says Man's Whiskey Capacity Is A Quart A Day

Washington, June 9—(P)—Science has concluded man's whiskey capacity is a quart a day.

Dr. Henry W. Newman of Stanford University Medical School, San Francisco, says a man—if he's average—probably is in error if he boasts of more.

One quart is the capacity of an average man—weight around 154 pounds—at sea level in pleasantly cool weather, drinking 100 proof whiskey. Heavier people may have slightly greater capacities.

(The doctor wasn't saying, by any means, that a person can drink a quart a day without harmful effects. His thesis was that if the average person tries to drink more he courts unconsciousness or death.)

A Washington physician said that, on a quart a day, the average person would be a "drunken sot."

People who boast of their drinking capacity take issue with Dr. Newman. They say his estimate is far too low.

Dr. Newman, writing in the magazine "Science," says he worked with dogs. He gave them an alcohol-water mixture, and also injected alcohol into their blood. These experiments demonstrated the rate at which the dogs' bodies disposed of the alcohol, converting it to energy or otherwise utilizing it.

Newman says the dog's ability to handle alcohol is approximately that of a man weight for weight.

Five Cent Gas Tax Bill Advances In Senate

Springfield, Ill., June 9—(P)—Facing an uncertain fate, the five cent state gasoline tax bill advanced in the Senate today for a passage vote next week.

Before it moved up, downstate senators won a long standing squabble by refusing to give Chicago and Cook county a bigger split of the proposed higher revenue.

That decision led to private predictions by many Chicago senators that the tax increase is dead. The tax now is three cents a gallon.

But Senator Wallace Thompson, leader in the GOP-controlled Senate, told a reporter he believes the bill "has a chance of passing, downstate farm bloc lawmakers, anxious to get gas tax income for country roads, agreed with Thompson."

The five cent tax would bring in about \$85,000,000 a year. Increasing present income from this source by \$34,000,000.

Senator William Connor, Chi-

go Democrat, tried to get a larger share of the \$85,000,000 for Chicago and Cook county than the bill provides. His amendments were beaten by a 28 to 19 vote.

Connors and other big city senators wanted to earmark \$2,250,000 more than the bill proposed for Chicago and about \$1,500,000 more for Cook county.

This would have been done at the expense of allotments for the state highway system, rural roads and downstate counties. The Chicago members argued that the Chicago metropolitan area pays most of the gas tax and should get a larger return.

Senator Simon P. Lantz (R-Concord), farm group spokesman, declared: "The question is not who pays the taxes but who will get benefits. Every downstate senator should vote for better country roads."

Indonesia Shifts Trade To U.S.

Batavia—(AP)—Radio Indonesia reported that British manufacturers were losing a profitable market in the Netherlands Indies because Indonesia had not the sterling exchange with which to pay for British goods.

"Indonesia wants to deal with Britain," the radio said, "but is unable to do so because it does not have the sterling assets." Prewar, it added, British-N.E.I. trade was considerable, now it is negligible. And the British require payments in sterling.

The radio said, as a result, the Netherlands Indies was turning to the United States as a supplier for

Mayrose
Ready-Serve
Ham

1. Cut 3 or 4 slices off the thin side of the ham.

2. Push the fork firmly into the large end and grasp the shank to turn ham so it rests firmly on the cut surface. Make a straight cut down to the bone. Cut out a wedge-shaped piece.

3. Starting at the wedge, cut slices of desired thickness down to the bone. Continue slicing toward large end.

4. Insert the knife at the wedge-shaped cut and, with knife parallel to platter, cut along bone to free the slices.

Methodist Pension Secretary Warns Of Socialistic Dangers

The United States must guard against the encroachments of socialism, Dr. Thomas A. Stafford, executive secretary of the Methodist board of pensions, declared Thursday morning in an address before the delegates to the Illinois Conference of the Methodist church, now in session at Grace church.

"We are now on the brink of a precipice," Dr. Stafford warned, "and we must not plunge to ruin. We have bolstered most of the world's economy, but there is a bottom to the barrel." He went on to say we should cease following England's lead and predicted that England's economy, because of socialism, will collapse "in a few months."

Such a collapse would have an effect on America's economy, and, therefore, on the investments of the Methodist pension fund, Dr. Stafford advised. However, he pointed out that the pension fund is invested more soundly at present than in the past, and a depression would not have too marked an effect on it.

Dr. Stafford, who began his ministerial career in northern Minnesota in 1906, reported that the Illinois Conference has one of the best, if not the best, pension records in this section of the country. The Illinois Corporation, which handles all Methodist pensions for the state,

has 12 million dollars in assets, according to Dr. Stafford.

Other business taken up during Thursday morning's session was the reports of the board of evangelism, the anniversary board of conference claimants, and the Temperance League of Illinois.

Reports on Temperance

In delivering the Temperance League report, M. E. Chapman, assistant superintendent of the league, revealed that almost 300,000 pieces of temperance literature was passed out in the state, during the past year; 144,000 school children received temperance lectures, and additional lectures were delivered in over 1,000 churches in the state. As a result of the Illinois campaign and campaigns in other states, he said, less beverage alcohol was used in Illinois and the country as a whole than in the previous year.

Three amendments, affecting internal administration and policy, for the Methodist church were voted on and approved by the Conference. One of the amendments would lower the minimum age requirement of delegates to the general conference, from 25 to 21.

The Thursday evening feature of the Conference starting at 8 o'clock will be a public service sponsored by the board of lay activities. The service will include group singing, special music provided by a male quartet, and an address by Clinton G. Bennett, executive secretary of the general board of lay activities.

Children's Day to Be Held Sunday At Baptist Church

The kindergarten and primary departments of the church school of the First Baptist church will present the annual children's day program in the sanctuary Sunday at 3:30 a. m. The Kindom Workers class is in charge of the floral decoration. The program will be presented in front of a picket fence, with floral decorated arch.

The program will be announced by Miss Leona Baldwin. The Kindergarten department, the superintendent of which is Mrs. Charles Pees, will present the first part of the program.

The children of the department will open the service with a chorus, followed by prayer given by Janet Stewart; children's day greetings by Carron Smith; a welcome address by Gloria Nash; "Little Speech" by Nyla Strommatt; a recitation entitled "All For Us" by Ruth Ann Ralston; "Ten Tiny Tots" by Jimmy Patrick; Cecil Pearson, Barbara Chaudoin, Jane Henley, Patricia Mosley, Nita Rae Wallbaum, Steve Anderson, Jerry Day, Cary Brancer, and Merle Kay DeWeese; "To a Bird" by Pamela Cole; solo by Ronny Yates; a Mother Goose presentation, by Judy Strickler, Jarice Ann Johnson, Michael Harris, Danny Arthallony, Donna Wright, Bobby Hills and Katharine Watson; "An

Early Call" by Richard Sweeney; "My Little Word" by Kathleen Brooks; "A Secret" by Lawayna Herrin; "The Bird's Children Day" by Betty Hill; a vocal duet by Margaret Ann Dobson and Warren Curtis; "Thank You" by Charlene Probasco; and a recitation, "Good or Bad," by Gilbert Mulch. The program will close with a unison prayer by the entire department.

Under the supervision of the primary department superintendent, Mrs. Irene Sanders, a brief program will be presented, including, Becky Dobson, "A Word of Welcome"; children singing "What the Church Belongs Say"; Bible verses recited by Mary Stewart, Linda Hills, and Billy Rolson; children singing "A Call to Worship"; and Janette Elliott will offer prayer; Linda Young will give "Jesus' Words"; stories will be told by Nicky Weems; Perry Roberts will recite "The Many, Many Children"; a song will be sung by the department "We Love Our Sunday School," which will follow a presentation, which includes Joe Klemm, Lillian Coats, Mary Mosley, Joann DeWeese, Ronald Ward, Doris Curtis, Dona Arenz, Barbara Curtis, Faye Ann Peas, Howard Timmons, Patrick, Cecil Pearson, Barbara Chaudoin, Jane Henley, Patricia Mosley, Nita Rae Wallbaum, Steve Anderson, Jerry Day, Cary Brancer, and Merle Kay DeWeese; "To a Bird" by Pamela Cole; solo by Ronny Yates; a Mother Goose presentation, by Judy Strickler, Jarice Ann Johnson, Michael Harris, Danny Arthallony, Donna Wright, Bobby Hills and Katharine Watson; "An

Legionnaires to Visit Children's School at Normal

The 15th Annual American Legion Pilgrimage to the Illinois Soldiers and Sailors Children's School at Normal will be held Sunday, June 12th.

Attendance is expected to exceed 3000, according to Walter L. Wolf, Bloomington, Legion Child Welfare liaison officer to the ISSCS, who said that many were present at last year's pilgrimage.

The annual visit to the ISSCS is sponsored jointly by the American Legion and the Forty and Eight, assisted by the American Legion Auxiliary and the Eight and Forty.

The purpose of the tour in addition to staging a picnic, parade and entertainment for the more than 300 children of veterans at the school, is to demonstrate the interest of the all ISSCS students and to better acquaint the average Legionnaire with the school's mode of operation.

William G. Burns, Chicago, Illinois Legion commander, will be the guest speaker, Ralph Johnson, Galesburg, Illinois Forty and Eight grande chef de gare; Merle E. Schaad, Princeton, Illinois Legion senior vice commander; and Hayes Kennedy, Joliet, Legion state child welfare chairman are some of the top officials expected to be present.

The program starting about 10:00 a. m. with registration of musical and marching units, will include luncheon on the campus served (at noon) by the Legion Auxiliary at their respective district areas; address by state commander, parade and musical entertainment for the children; tour of cottages and baseball games as scheduled.

Nation-Wide All-Star Baseball Poll Underway Today

Les Kennedy Takes 1st Round Of U.S. Open With 2 Under Par 69

Chicago, June 9—(P)—Medinah's, the small, tricky greens for a 35-36 over the 6,981, par 35-36-71 course. That gave him a one-stroke edge over a cluster of veteran pros.

It was a day of heartaches for the favorites and a surprising show of strength for the underdogs—the unknowns and the oldsters who were expected to fall early in the battle with this tree-trimmed, well-trapped Medinah No. 3.

Sam Snead's red-hot gooseneck putter, which carried him to victory in the Masters and PGA tournaments, became a slab of cold steel today. The West Virginia favorite had a 73.

The other two best-liked contenders—Bobby Locke, the methodical South African visitor, and Byron Nelson, the former champion who has left his Roanoke, Texas, cattle ranch for the event, shared 74's that left them in arrears.

There were other fall downs as the field of 162 wrangled with par on this mild afternoon under a warm sun.

Frank Stranahan, the Toledo, Ohio, amateur star and former British amateur titleholder, and Jimmy Demaret, the "ranking money-winning" professional from Ojai, Calif., indulged in fat 82's that virtually eliminated them from title contention.

Other topflight pros who took a beating from Medinah's grim regulation card were Vic Ghezzi of Deal, N. J., and Jim Turnesa of Briarcliff Manor, N. Y., with 78's; Skip Alexander of Lexington, N. C., 76, and Dr. Cary Middlecoff, the Memphis precisionist, 75.

In the surprise category, besides Kennedy's 69, were the even par 71 rounds turned in by Bobby Cruikshank, the indestructible 53-year-old Scot from Pittsburgh, and Ralph Guldahl, the two-time Open winner from Chicago.

The 40-year-old Guldahl, who has not been a major tournament contender for years, was former professional at Medinah.

Sharing second place one stroke back of Kennedy with 70's were Herman Barron, Chick Harbert, Charley Parlow and Al Brosch.

Parlow is a virtual unknown home professional from Greensboro, N. C., who quit the professional tourney trail in 1941. Brosch is a 37-year-old Garden City, N. Y., instructor who missed a six-foot putt on the final green that would have given him a tie for the lead.

Brooklyn Defeats Cubs 9-5 To Keep Lead In League

Brooklyn, June 9—(P)—The league leading Brooklyn Dodgers today chased lefty Johnny Schmitz, and went on to defeat the Chicago Cubs, 9-5.

The victory was the Brooks' third straight over the Cubs and their fourth in a row.

Pittsfield Man Will Tutor Bluffs Athletes In '49-'50

Bluffs—Harold Hillman of Pittsfield has been named by the Bluffs school board to coach in the high school system.

Hillman attended the public schools in Pittsfield prior to enlistment in the Marine Corps. After serving four years with the Marines during World War II, he entered Mo. He graduated from that school on May 30.

He participated in varsity football, basketball and baseball while in college.

Hillman, who is married, will teach social science subjects in addition to his coaching duties.

Hillman is the second Culver-Stockton graduate of the class of 1949 to be employed as a coach in this area. Verdie Altizer, also of Pittsfield and a graduate of Culver, was named athletic mentor at Arenzville recently.

Pepsi Cola, Dealers Win League Games

The largest crowd of the current season saw two red-hot league games on the Nichols Park diamond last night.

In the "B" loop preliminary tilt, the Pepsi Cola team nipped the Red & White representatives 8-7 in a hotly contested bout.

The Pepsi held a 5-4 advantage going into the seventh chapter. They tallied 3 runs in the top of the last

inning, to hold a big 8-3 lead.

The Red & White club pounced on Pepsi pitcher Turner for a pair of hits and, aided by several walks, scored 3 runs of their own and almost threw the game into an 8-all knot before the winners could put out the fire.

Sunday night's out-of-town games may be brought to the sports editor Monday morning, before 9 o'clock.

The Jacksonville Merchants, managed by Hannibal Dixon, have replaced the American Legion nine in the senior "B" softball league. They will play all games that were originally scheduled for the Legion club.

After this week's play, the junior clubs will be split into two six-team leagues—National and American. Watch this column for the appointment of the teams in their respective leagues.

All softball managers, both in the junior and senior leagues, are requested to bring the box score of out-of-town games to the Journal-Courier sports department the same night they are played. Managers have been lax in bringing the box scores to the paper. Tabulate each players time at Bat, Hits and Runs, and we'll be glad to publish each game on the sports page. Be sure and mark each players position clearly in the scorebook and make your writing legible. We can't print it if we can't read it.

Sunday night's out-of-town games may be brought to the sports editor Monday morning, before 9 o'clock.

Journal-Courier Plan Cooperation; Ballots Now Being Published

The Jacksonville Journal-Courier will be the official polling place for the next three weeks as baseball fans in this area cooperate in picking the two all-star teams who will play their annual game at Brooklyn on Tuesday, July 12.

Appearing in the newspapers today for the first time is an official ballot for the convenience of fans. However, votes do not necessarily have to be submitted on the ballot. Fans may bring their selections to the sports editor, Journal-Courier, Jacksonville, Ill., in any manner they see fit so long as each position and name are clearly legible.

Cards Take Series From N.Y. Giants With 4 To 1 Win

New York, June 9—(P)—The ram-paging St. Louis Cardinals scored their sixth straight victory today as Lefty Howie Pollet turned back the slumping New York Giants, 4-1, on a neat six hitter.

Pollet, who now has won five consecutive games, was in front all the way as the Cards shoved a run home in the first inning on a walk, stolen base, ground out and singles by Stan Musial and Ron Northey.

The Cards rapped losing pitcher Clint Hartung for three more runs in the fifth to sew up the game.

The Giants scored an unearned run in the sixth to snap their string of consecutive scoreless innings at 24.

The Cards now have won 15 out of their last 17 starts including eight out of nine on their current swing through the East.

St. Louis 100 030 000—4 7 1
New York 000 001 000—1 6 1

Pollet and Garagiola; Hartung; Higbe (6), Behrman (8) and Livingston. Losing pitcher—Hartung.

The poll is recognized as the greatest cooperative effort in the history of athletics. A total of 440 polling centers will be available to the fans.

Must Use Players Selected
Every major league city has at least one voting outlet. In addition to the gigantic newspaper and radio hookup, the major leagues will distribute ballots in the various parks. They will be turned in either to the local newspaper or directly to the Chicago Tribune, which is serving as the clearing house for the national contest.

The managers of the two All-Star teams will be obligated to use the players chosen by the fans for at least three innings. The same system has been employed the last two years.

The poll was a highlight of the All-Star series when it was originated by the Tribune in 1933. That year, 54 newspapers cooperated and the total vote was in excess of 500,000. Al Simmons of the White Sox was high man with 346,291 ballots. When the game was turned over to the major leagues in 1934, an effort was made by other organizations to operate a poll, but it wasn't representative of fan sentiment and was abandoned in 1935. Meanwhile the players were picked by major league managers.

Game Returned To Fans
The game lost much of its significance after the selection was taken away from fans and in 1947 the major leagues again invited the newspapers to revive the poll.

The American league has won 11 out of the 16 games. Net proceeds from the game go to the baseball players pension plan.

You may not be among the crowd that will see the 16th All-Star contest at Ebbets Field, but that does

ISLAND OF ESCAPE

THE STORY: Stranded on a remote island, eight persons who came to Henry George Harding's "New Idea" face a dreary future. George Harding, the weakling, has seized the only rifle and has declared himself "king" with Mollie Stark as his "queen." The only hope of rescue is from a fishing boat which may have been wrecked during the storm. Ben Cosgrove talks to Fred Sillwell who says he came to the island to blackmail Harding, and believes that Harding killed both Lilly Warren and the Simpson's mate. Ben herself came to the island to avenge the death of her husband, Jim Martin, who killed himself as a result of Harding's activities.

XXXIV

"YOU found the cleaned-up place in the storerooms. You must have missed something else," Fred Sillwell said. "When I had my talk with Harding I told him the gun wasn't mine. I hinted I wasn't satisfied with the woman's death. Maybe I mentioned the futility. And what happens? That very night the whole place is blown sky high. Whatever evidence there was is gone. I don't need it. I don't have to make a case stand up in court."

"What'd he say when you told him it wasn't your gun?" Ben Cosgrove asked.

Sillwell scowled again at the memory. "Laughed at me. He sure made me sore. I worked all afternoon piling up driftwood for a bonfire. And then I didn't get a chance to light it."

"Did you see him leave while we were fire fighting?"

"No. You remember how it was. Everyone running around. Maybe he didn't mean the fire to get out of control or maybe there was something else he wanted destroyed."

"You think he'd rain all the work and planning he's put in on this island?"

"He's got a lot of money left," Sillwell reminded her. "He can build again, if he's free."

"What about the dead man?"

"The fisherman? Probably he was snooping around, saw Harding leave the rifle in the shed and stole it. Then he was caught by the fire and killed himself. Anyhow he was plenty drunk."

Fred moved closer to her. "When I went to the cave after the fire, George told me a case had been opened and a couple empties left lying around. He thought I did it."

"You knew about the whiskey in the cave but you went on buying it from him. Why?"

"What's the harm? It kept George happy, thinking he was putting a fast one over on me. I don't mind a guy trying to pick up a couple bucks on the side. And it was funny in a way. George sneaking off and bringing me a bottle when I wanted it. I knew I could get the money back any time I wanted."

"How?"

SILLWELL laughed. "Just ask him for it."

"You remember when George picked up the rifle? It wasn't an empty he ejected."

"Go on."

"No man could have shot himself like that and ejected a spent cartridge afterward. And left a live shell in the chamber."

Fred Sillwell said softly, "I was right to play my hunch and talk to you. You keep your eyes open. You're smart." He thought a moment. "You're sure?"

"Yes. I found the live shell. I couldn't find the empty. I looked for it."

"This fits even better. Harding left the fire fighting and went back to blow up the buildings to hide the evidence of his first crime. When the fisherman sees what Harding is doing, he lets him have it so there won't be anyone to tell and the blame for the explosion goes to the fisherman! Say! This is worth real dough to me. I won't forget it."

"Why couldn't the fisherman have done the dynamiting? Maybe he just had it in for Harding, and set the fire so he wouldn't kill all of us. Any one of us could have come back and shot him after he'd lit the fuses."

"No," Sillwell said. "If any of us had shot a dynamiter, we'd have stepped forward and got a medal."

"That's reasonable," Ben admitted.

Fred Sillwell nodded soberly. "I don't much like the spot I'm in. I can take care of myself, but telling you this gives me a little protection. It'd be harder to get rid of us both."

"Swell of you to include me in," Ben said.

"Skip the sarcasm. You're in already and you know it. This island! I wish we'd get away. It's beginning to give me the creeps. Now, the rifle. I want it. We'll have to figure out some way to get it from George."

MABEL JONES flung down an armload of wood and watched Ben Cosgrove stack it around a central post.

"It gives us something to do," Mabel said. "We won't sit around and mope."

"You sound as if you expected to be here a long time."

"Why not? The Simpsonico isn't due back for a couple months. We were to have a three-month trial, remember. About our only other chance is a fishing boat, and this kind of weather they'll be smart enough to be somewhere else."

Ben kept still, put the last few pieces of wood on the growing pile.

"And what difference does it make anyhow? To the three of us and Harding, I mean. The outsiders want to leave, sure. But we came here expecting maybe to stay. I don't see the loss of the house, some comforts and supplies makes much difference. We still got the island. We can still live. I don't get this concentrating everything on being 'rescued.' Rescued from what?"

"You and me, Harding wants to get some more supplies."

Mabel shrugged. "That's all right too, if he wants it. We still have plenty of stuff buried though. We can get at it eventually. We could build again with what's on hand."

I. C. ACTORS REHEARSE

Dress rehearsals Wednesday and Thursday nights have prepared the Illinois College Hilltop Players for their production of "A Midsummer Night's Dream," to be given at 8:30 o'clock tonight on the Ames Woodland stage. In case of rain the play will be given in the J.H.S. auditorium.

Here attention seems centered on Bill DePrates of Jacksonville, unrecognizable in short costume and donkey's head. In this scene, one of Shakespeare's most humorous, Oberon (at right) discovers his fairy queen, Titania, courting Nick Bottom, a foolish rustic.

Titania's sudden infatuation is the result of a magic spell cast by King Oberon, played by Dorothy Foote of this city. Joan Clymer, daughter of Mr. and Mrs. Henry Clymer of Hadonfield, N. J., portrays Titania. A freshman, Miss Porty will serve as treasurer of the Hilltop Players next year.

Miss Foote, daughter of Mr. and Mrs. Gaston W. Foote of 312 N. Church street, played Elaine Harper in the fall production of "Arsenic and Old Lace." Miss Foote, a junior, is a speech and dramatics major and will act as business manager next year.

Mr. DePrates, who has been president of the Hilltop Players this year, is the son of Mrs. Ernest DePrates, 863 N. Prairie street. He has written a handbook for Hilltop Players which contains information valuable to members of the drama club and which will simplify productions.

Particularly active in dramatics during his college years, DePrates' last major role was that of Charles Lamb, the English writer, in "Charles and Mary."

Also included in the cast are four other students from Jacksonville: Ed Cox, son of Mr. and Mrs. Edward L. Cox of 205 E. Greenwood street; Joe Baker, son of Mr. and Mrs. Thomas R. Baker of 1824 S. Main street; Frances Heimlich, granddaughter of Mrs. Bernice Heimlich of 223 W. College avenue; and Marilyn Cruse, daughter of Mr. and Mrs. Henry A. Cruse of 1239 Clay street.

Cox, a sophomore, will dramatize Lysander, one of the Greek lovers. He has been business manager of the club during the past year and will serve as vice president next year.

Baker, who plays Snug the joiner, is a freshman and has been in the other two I. C. productions this year. He was Mortimer Brewster in "Arsenic and Old Lace" and John Lamb in "Charles and Mary."

Both Miss Heimlich, a sophomore, and Miss Cruse, freshman, are included in the 14-member fairy chorus. They will participate in three dance numbers.

Miss Donna Postlewaite, daughter of Mr. and Mrs. Warren Postlewaite of Chapin, will portray Helena, a Greek lover. Miss Postlewaite, freshman, played Aunt Martha in "Arsenic and Old Lace." She will serve as corresponding secretary next year.

Ashland Couple Observe Golden Wedding Date

Ashland—Mr. and Mrs. John Adkins marked their golden wedding anniversary with a family dinner held at their home here.
